<Special Items>

In May 2023, the number of inbound visitors improved by 1.9 points from the previous month, a decrease of 31.5% from the same month in 2019, continuing the recovery trend. The domestic leisure demand remained robust. As a result, RevPAR for the total of the 25 Hotels with Variable Rent, etc. owned by JHR in May 2023 was 0.1% lower than RevPAR for the same month in 2019.

Under such circumstances, we are working with the operators of each hotel to achieve continuous recovery and growth of hotel performance through creating attractive products that fully utilize the characteristics of the properties we own, providing added value, effective marketing measures and expansion of channels for sales to attract domestic and inbound demand in the future in addition to continuing effort for cost management and operational streamlining.
